**\* Very unique accommodation \***

These motel rooms are unique, built in part from recycled and natural materials. They have in the past worked hard as a war plane, a navy patrol boat and a carriage from the steam train era. As such they have a slightly lingering aroma from their industrial past, much like any modern vehicle - their scent reflects the materials they are made of. The Hobbits built underground contain natural fibre curtains and some timbers - these too reflect the natural scent of their origins.

In the cockpit area there is no floor space other than bed and pilot seats, making this a more suitable space for kids as it also has a very low ceiling, to get to the cockpit you have to climb a steep ladder, children need to be over 8 years old, to climb this safely. Once up there, there is an opening through which you ascend.

**Cost: \$215.00 per double and \$25.00 per each extra person, per night**

#### **2) The Tail Unit**

This unit can sleep up to 4 people, it has a double bed and a set of bunks (bunks are slightly narrower than a normal size bunk and has a steep ladder up to the top bunk.
